Mercantile paper was bought with more freedom this week and a greater amount could be placed than is warranted by the output. There was a fair demand in this and other centers. Rates 3a3½ per cent for sixty to ninety days indorsed bills receivable; 3½a3% oer cent for choice four to six months single names.

> Congressman Richard W. Austin, of Tennessee, one of the leading members of the House of Representatives, who has just returned from a visit to the Hawaiian Islands, after making a very close study of the coaditions there, has written a very interesting article on what he thinks the United States should do in regards to that country. Mr. Austin, who has been in Congress a number of years, always takes a very keen interest in all leading affairs of this government. His article, published exclusively last week in The Herald, on conditions in the Philippines, has been copied by leading trade publications in the East and has been most favorably commented upon. Mr. Austin leaves this week for his home in Tennessee, where he goes to spend some time among his constituents. While there Mr. Austin will deliver illustrated lectures all over his district on conditions in the countries he has just visited.
